R6000F Series 4K Hisense Roku TV

MODEL 55R6040F

More than a smart TV — a better TV

If you love movies, shows, sports and gaming, then the R6000F 4K UHD Smart Hisense Roku TV is perfect for presenting your favorite entertainment in a whole new way. Featuring 4K Ultra High Definition resolution, the R6000F packs incredible detail into an HDR-compatible display that boosts contrast and color. With Motion Rate processing tech, you can enjoy the fastest action without lag or judder. The Hisense Roku TV serves up a massive library of premium content at the touch of a button. Simple to set-up and easy-to-use, connect to the internet, activate, and start streaming

4K Resolution

With over 8 million pixels, the R6000F offers a clearer, more defined picture when compared to Full HD. Plus, easily make the most of the brilliant picture by accessing 4K Ultra High Definition movies and TV with the 4K Spotlight Channel

HDR

High Dynamic Range offers an incredible new vision for experiencing your favorite games, movies and shows by adding dramatic contrast and brightness to every second of every scene. And with HDR 10+ and HLG formats also supported, the R6 gives you more ways to dive deeper into blockbuster-level color and detail from the comfort of your couch.

Works with Google Assistant

Google Assistant turns your TV into the ultimate conversation piece. With a Google Assistant device and voice command, you can take control of your smart home. Turn on the TV and lights. Set a reminder or adjust the thermostat. Check your calendar and the kiddos bedroom. Discover and play your favorite songs or shows. Or get answers about weather, traffic, sports scores and that show you're watching. Just say the word. The options are limitless.

Works with Alexa

The R7E works with Alexa through an Alexa-enabled device that you already own. Speaking commands to power on and off the TV, change channels, and other TV-related tasks is just as fun as it sounds.

Motion Rate

Don't struggle to keep your eye on the ball—enjoy fast-paced sports, movies and 4K gaming without the lag. Featuring Motion Rate image processing technology, the R6000F keeps the thrills coming by making it easy to follow fast-moving action.

Wi-Fi Dual Band Wireless

Connect the R6000F to the internet and get everything from performance-enhancing software updates to your favorite shows. With dual band wireless built in, the R6000F can make the most of modern routers, giving you blazing-fast connection speeds without a mess of tangled cables.

ROKU TV OS

Start with quick access to nearly endless content. At the touch of a button, you're in control of a digital library with more than 500,000 free and premium entertainment options across thousands of channels. The biggest networks. The top streaming services. All the live sports, must-see TV, award-winners, blockbusters, and kid-friendly content a person could ever "need." And with Universal Search, the R6 does the curating for you.

DTS Studio Sound™

What good is a beautiful picture if the sound is tinny and thin? You'll be blown away by the full and detailed sound from your TV speakers.

More Options on the Table

Great for cable, satellite, streaming, or watching free TV with an HDTV antenna.

*HDR viewing experience will vary by model, content availability and internet connection.
