**H9 Series 4K ULED™ SMART TV**

Model # 65H9D

## I'm a showpiece

With premium ULED technology that produces colorful and smooth images and \*HDR technology which displays a more vibrant picture, this TV is designed to impress. The **H9 Series 4K UHD Smart TV** comes in 65 and 55-inch class screens and will fit in any decor. With plenty of tech that offers conveniences like a UHD Upscaler to convert lower resolution content as close to 4K as possible, this TV is sure to spoil anyone - even the kid in you! This series also offers award-winning sound integrated with dbx-tv technology, popular built-in apps to personalize your entertainment, and multiple ports to connect your favorite devices.

### ULED and 4K Upscaler

First, we put 4K resolution (8.3 million pixels) into a ULED screen. Then we loaded it with an Ultra LED (ULED) backlight and 4K upscaler. ULED technology is crucial if you want local dimming, motion rate, brightness peaking, dark image enhancement and a feeling of self-worth. Finally, we packed all this into a slim profile you can fit just about anywhere.

### HDR

What do you get when you combine 4K resolution (8.3 million pixels) with HDR that displays a vibrant picture? You get crystal-clear images that have greater depth and appear so real, you'll want to reach out and touch them.

### Wide Color Gamut and Motion Rate

Thanks to Wide Color Gamut and Motion Rate, these two features help to deliver the best picture possible and make you a happy viewer..

### Popular, built-in apps

Can't get enough of Netflix or Facebook? No worries. All your favorite apps are pre-installed and ready for some serious binge time.

### Award-Winning Digital Audio Technology

Let the award-winning sound, integrated by dbx-tv®, carry you away. You'll hear every detail in the background of your favorite movie and experience it differently.

### Numerous inputs

We made it easy to connect external devices with multiple ports. This TV comes with 4 HDMI, 3 USB terminals and much more.
