## Melding timeless design and modern conveniences

On the outside, the Hisense HRF266N6CSE refrigerator is 36 inches wide and is designed to seamlessly fit into any kitchen space and decor. The brushed stainless-steel finish is fingerprint resistant making it both pleasant to look at and easy to clean without any special chemicals. The premium flat design also features recessed handles, making them easy to open and adding a touch of modern accents. Also inside is a filtered water dispenser with NSF/ANSI 42 and 53 certified certification that provides fresh-tasting filtered water, and what's better is that the installed icemaker uses this filtered water to make its ice.

Controlling the temperature of your refrigerator is made simple with the HRF266N6CSE. Along with an easy to control touch display, Hisense has added a Super Cool and Super Freeze function to give users the ability to rapidly lower the temperature in both the refrigerator and freezer at the touch of a button. These features are extremely helpful after a trip to the grocery store to help cool or freeze the items quickly and maintain the desired internal temperature.
