

## 4K ULED

Hisense is proud to introduce a brand new member to our family of ULED televisions. The U6GR Hisense Roku TV, a QLED TV with a host of features both expected and unexpected. For consumers wanting to experience some of the most talked about technologies all in one package without having to worry about how many commas are on the price tag, this Hisense Roku TV makes the most sense.

4K resolution and Quantum Dot Color combine UHD clarity and over a billion colors for beautifully clear and vibrant picture. With the latest in premium HDR technologies, Dolby Vision HDR\* enhances full array local dimming zones for broad contrast between bright and dark content across the entire screen. At the heart of the U6GR is a powerful quad-core processor that manages the numerous display processes that provide a premium picture at a non-premium price.

Combined with Roku, America's #1 TV streaming platform\*, this is the ultimate entertainment powerhouse providing a premium picture at a non-premium price. Stream a massive selection of free, live, and premium TV. The customizable home screen puts you a click away from your favorite channels, inputs, live TV, and free entertainment. Enjoy easy voice control with Siri, Alexa, or Hey Google or use the rechargeable voice remote with lost remote finder and personal shortcut buttons.

### 4K ULED™

Take your picture from great to incredible. The picture quality of the U6GR is driven by our exclusive ULED technologies, which drive the PQ enhancing algorithms that boost color, contrast, brightness, and motion. All are calibrated to work together in perfect harmony – to upgrade the performance of every pixel and create a picture that transforms your favorite entertainment into your Ultra-new reality.

### Quantum Dot Wide Color Gamut

The introduction of Quantum Dot technologies opened some eyes. We've unlocked the power of over a billion color combinations perfectly expressed. It's easier to feel connected to what's real while still enjoying the incredible with the U6GR Series.

### Dolby Vision™ • Dolby Atmos®

The fusion of Dolby Vision HDR\*\* picture and Dolby Atmos sound transforms your TV into an entertainment powerhouse. These image and sound technologies from cinema, now brought together in the home, provide amazing realism that you'll see, hear, and feel like never before.

### Smart OS – Roku TV™

Hisense Roku TV makes it easy to watch what you love with all your favorite entertainment in one place. Access your cable, satellite service, and HDTV antenna, or start streaming live and on-demand TV from thousands of channels. Easily discover and enjoy in-season shows, live news, movies, kids' entertainment, and more for free. Enjoy features like cross-channel search, compatibility with popular voice assistants, and automatic software updates, plus voice control and private listening on the free Roku mobile app.

### Peak Brightness/Full Array Local Dimming Zones

With higher peak brightness, overall picture quality can be brighter - which is great for well-lit rooms - and high dynamic range content is sharper with better highlights and details. In the U6GR Quantum, up to 600-nits peak brightness across up to 60 local dimming zones ensures a superior HDR experience.

### Game Mode

Game Mode is a collection of the latest and most advanced gaming technologies available in televisions today. HDMI 2.1 inputs recognize gaming sequences and automatically optimizes display settings for a top-notch experience. The Automatic Low-Latency Mode (ALLM) and Variable Refresh Rate (VRR) deliver smooth, fluid game play by minimizing input lag and screen jitter. This feature brings players instant response times and minimal motion blur and halo effects.

### Voice Remote

Voice Remote copy: "Power up your TV, adjust the volume, and control your Roku device with one remote. Use your voice to quickly search, play entertainment, and more.

### Voice Assistance\*\*\*

Ask your Alexa or Google Assistant-enabled device to launch channels, search for entertainment, control your streaming, and more. You can also control your TV using the Apple Home app or Siri on your Apple devices.

\*Based on hours streamed - April 2021 (The Hypothesis Group).

\*\*HDR viewing experience will vary by model, content availability and internet connection
