The Smart Upgrade

The H6500F series is as smooth as it is smart, thanks to advanced technologies inside and out. Colors burst off the screen in amazing 4K resolution. And action-packed movies and games don't miss a beat thanks to advanced picture technologies like Motion Rate processing. For a 4K UHD picture, plus incredible content, and convenience, the smart money is on the H6500F. With four times more pixels (8.3 million) than standard high-definition TV, an Android OS with built-in apps and Google Assistant for voice control, the H6500F Series 4K Ultra HD Hisense Android Smart TV sets the standard of what a TV should be.

4K UHD

Delivers more than 4x the resolution of a regular 1080p high-definition screen. Along with over 8 million pixels, inside you'll find a powerful LED backlight at work creating a sharper, more colorful picture.
