H9 Plus Series 4K ULED™ SMART TV

Model # 55H9E Plus

I'm incredibly talented

With exclusive ULED™ technology that produces the very best in image quality, the Hisense H9 Plus Series is designed to impress. Equipped with Wide Color Gamut, Dolby Vision™ and HDR10*, the Hisense H9 Plus combines the power of a broad color spectrum and super-sharp contrast to produce the most lifelike images. A native 120 Hz. panel paired with special motion rate software means no more straining to keep up with fast-moving scenes. The built-in Google Assistant syncs seamlessly with your Google Home while helping personalize your entertainment with a huge suite of compatible apps. Adding in a new “bezel-less” design and a UHD Upscaler, the Hisense H9 Plus Series can make the most of your media — and look great doing it.

ULED 4K TV

Our patented ULED™ technology makes images stunningly vibrant and lifelike through an exclusive combination of color, contrast, resolution and smooth motion. The Hisense H9 Plus Series features Wide Color Gamut, a UHD Upscaler, Ultra Motion Rate and HDR to offer you the absolute best in picture quality.

Wide Color Gamut

Wide Color Gamut technology expands the number of colors that the Hisense H9 Plus Series can display, delivering a picture that feels real. Our tech produces true-to-life details by displaying billions of colors, keeping you captivated in everything you watch, start to finish.

HDR

Compatible with both Dolby Vision™ and HDR10*, the Hisense H9 Plus Series delivers the very best in color accuracy and contrast. With enhancements to the darkest and lightest areas of the picture, HDR delivers an image that looks closer to life. So, kick back with your popcorn and watch anything without fear of mismatched HDR formats.

*HDR viewing experience will vary by model, content availability and internet connection.

Ultra Motion Rate

Don't struggle to keep your eye on the ball—enjoy fast-paced sports and movies with Ultra Motion Rate technology. Ultra Motion Rate helps the H9 Plus keep the thrills coming by reducing judder during fast-moving scenes.

4K Resolution/UHD Upscaler

With over 8 million pixels, the Hisense H9 Plus Series offers a clearer, more defined picture when compared to Full HD. Breathe new life into older videos thanks to our UHD Upscaler which converts lower resolution content into stunning near 4K. Get ready to experience your favorite movies and shows in a whole new way.

Android TV

Customize your entertainment with a familiar friend. The Android TV operating system gives you access to the most apps, content and entertainment while the Hisense H9 Plus Series one-touch remote provides fast access to your favorite movies and shows at the touch of a button.

Google Assistant

The Hisense H9 Plus Series is instantly compatible with Google Home and comes with Google Assistant built into the TV, so it's always ready to answer questions, make recommendations and perform actions via web services. Just tap the voice control button to start controlling your display—play, pause or turn up the volume.

Bezel-less Design

Now this is neat: Our Hisense H9 Plus Series has a “bezel-less” design that's sure to be as much of a conversation piece as the picture. With a slim profile and razor-thin frame, images on the H9 Plus appear edge to edge, keeping you riveted by your favorite movies, sports and games.
