

The entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across your apps and subscriptions and organizes them just for you. Discover new things to watch with recommendations based on what you watch and what interests you, from across your subscriptions and content available to you. Ask Google to find movies and shows, answer questions, control smart home devices, and more, with your voice. And with the Google TV app you can watch anywhere, anytime.

#### 4K ULED™

Hisense's proprietary ULED technologies boost colour, contrast, brightness, and motion. This suite of patented hardware and software technologies delivers an engaging and completely unique picture that can only be delivered by Hisense.

#### Mini-LED

One of the newest backlighting technologies to enter the market, Mini-LED backlight panels create a brighter picture with more contrast control than typical LED backlit televisions.

#### Quantum Dot Wide Color Gamut

Quantum Dot produces purer, richer, more brilliant and accurate colour than a regular LED TV. Creating over a billion colour combinations bring vibrant images to life in a way non-QLED TVs can't.

#### Peak Brightness/Full Array Local Dimming Zones

The average TV is 250-350 nits. Anything over 500 nits is extremely good. This television is up-to-1500 nits peak brightness across up-to-528 local dimming zones. Above average peak brightness and local dimming are critical to correctly reproducing HDR content.

#### Dolby Vision™ • Dolby Atmos®

Dolby Vision HDR \* picture and Dolby Atmos sound are cinema technology for your home. They provide amazing realism you can see and hear in every scene.

#### Metal Stand, Bezel-less design

A bezel-less design gives this television a sleek aesthetic that won't 'overpower' the room with an unnecessarily large frame. The metal stand provide sturdy support for this feature-packed television.

#### FilmMaker Mode

By disabling all post-processing (e.g. motion smoothing) and preserving the correct aspect ratios, colors and frame rates, FilmMaker Mode enables your TV to display the movie or television show's content precisely as it was intended by the filmmaker.

\*HDR viewing experience will vary by model, content availability and internet connection.

# PREMIUM 4K ULED

For those looking for the best in the latest television technologies, the U8H should be a top contender. The most exciting 2022 upgrade is **Mini-LED**. With Mini-LEDs that are 50x smaller than traditional LED lights, local dimming and contrast control reproduce incredible black and white levels within the same scene like never before in the series. The U8H is now compatible with the **Wifi 6e** router protocol. Streaming from the wide selection of **Google TV** apps is now easier and smoother when connected to a dedicated router channel that won't be competing with other connected devices on the same router. For gamers, the U8H now comes equipped with Dolby Vision Gaming and FreeSync Premium Pro for enhanced gaming picture contrast and even smoother, tear-free motion. And lastly, the U8H is now available in a **75" screen size**. 2021 was a huge year for the Hisense U8H series and with so many upgrades, 2022 looks to be just as promising.

#### Smooth Motion and 120Hz Native refresh rate

Smooth Motion removes the digital 'noise' that can affect moving objects. The TV's native 120Hz refresh rate is the foundation for its 480 motion rate. These technologies work in concert to make fast-action scenes to ensure moving objects have minimal blurring.

#### Game Mode Pro

All the most advanced gaming tech, all in this TV. HDMI 2.1 inputs recognize gaming sequences to automatically adjust settings for smooth, uninterrupted play. The automatic low-latency mode (ALLM), 120Hz variable refresh rate (VRR) and FreeSync Premium Pro minimize input lag, screen jitter, and frame tearing.

#### Dolby Vision Gaming

This television can support Dolby Vision for gaming at 4k 120Hz.

#### Voice Remote

The voice remote control makes controlling your TV easier. Open apps, turn the volume up or down, search for your favourite shows. And if the actual remote goes missing, use the buttons on the TV to activate 'Find My Remote'.

#### Hands Free Voice Control

Put down the remote. Change the channel, find the latest movie, stream your favourite video and more with your voice. The quicker, easier way to find whatever you want to watch.

#### Google Assistant

The Google Assistant\* is built into Google TV. Tell it to turn on the lights, change the thermostat, add stuff to your grocery list, or just play that video of your friend falling over for the millionth time. And with universal search, you can even get recommendations with Google TV.

#### Works with Alexa

This television works with Alexa through any of your Alexa-enabled devices. Just ask Alexa to switch the TV on or off, change channels and lots more.

#### Bluetooth™ Connectivity

Wirelessly connect Bluetooth-compatible soundbars, headphones or stereo components to your TV. This quick and convenient connection eliminates unwanted and unsightly cords while providing a secure connection to your audio source.
