H4F Series Hisense Roku TV

2019 Model # 40H4030F (Gilmer)

The Stream Machine

For binge-watchers on a budget, the Hisense H4F FHD Smart Roku TV is a dream come true. It's the smart TV technology that offers a wealth of content and eye-popping 1080p quality.

Be sure to call your spot on the couch. The H4F is born ready with the built-in Roku™ TV platform, your private portal to more than 5,000 channels and 500,000 movies and TV episodes. So, no matter how many people you have in your house, there are more than enough must-sees and OMGs to go around.

And whether you're five episodes into the latest season or leveling up in your favorite game, advanced technologies like Motion Rate processing and Game Mode make the most of your fast-action viewing experience. Minimal lag or shaking. Maximum oohs and aahs. The H4F doesn't hold back, inside or out.

Plus, to make the decision even easier, we made the H4F even simpler. It's packed with built-in Wi-Fi and faster search. Just connect to the Internet, activate and find your favorite show.

With a rich picture and smart features made so easily attainable, it's hard

Roku TV Content

You can enjoy easy access to 5,000+ channels – and 500,000 movies and TV episodes – with Roku TV™. But endless streaming is only the beginning. An intuitive interface and simplified remote help you get the most out of your current cable or satellite subscription. Or, cut the cord altogether while still catching live news, sports and more in striking high resolution. Whatever your setup, the H4F Roku TV makes every day a great day to experience the entertainment you love and discover must-see shows.

Motion Rate

Blinked and you missed it? Think again. The H4F is built with motion in mind. Motion Rate image processing makes it so you can keep your eye on the ball, chase scene, or multi-player battle. Gamers see lag times drop and viewers see all the key moments in live sports or action movies. Captivating scenes grab your attention – and keep it with clear motion.

Game Mode

Game Mode offers super-low latency that reduces input lag, so signals travel faster from your fingers to movement on screen. Fast responses to each button press make sure the action in video games is processed quickly and you finish at the top of the leaderboard.

DTS TruSurround Sound

What good is a beautiful picture if the sound is tinny and thin? You'll be blown away by the full and detailed sound of the integrated DTS TruSurround™ sound.

Fast and Easy Search

Enjoy fast and easy Universal Search that discovers content far and wide, then displays it all in one place. Simply name a title, actor or director to find movies and shows featuring their work. That's all the H4F needs to tell you which items are free or premium, then point you to where to watch—including on-demand or live TV. It's just as fun as it sounds.

Works with Google Assistant

The H4F works with Google Assistant through a Google-enabled device that you already own. Simply use your voice to control your TV from your couch and enjoy your new best friend!

Works with Alexa

The H4F works with Alexa through an Alexa-enabled device that you already own. Using your voice to power on and off your TV, change channels, and other TV-related tasks, is just as fun as it sounds.
